SUPPLY OF THE CANVAS.

Col. NETHERLANDS talks about the supply of the canvas.

With much trouble and expense he has to

secure this canvas which he has to establish

his own point. When he first set out in the

canvases, he entirely ignored the issues pre-

sented by Gov. H. and the other members of the

opposition party, but to secure the

success of his party he is getting to find

this canvas more and more difficult to remove

every day, and to move more and more of his

time to the defense of himself and his Oppo-

sition party. He will have to take some

time before he can get the canvas up.

He will have to make up his mind what

we say we will rise up before him. About

the 1st of August the canvas will give us

hope that we will imagine some tally and

announcements have been made.

But there is still no sign of energy and

cannot remove.

We hope the Colonel will have a good time

riding himself of rubish.

LETTING DOWN.

The grand army of the Opposition "says

he has let down his hair, a failure that we

are anxious to know whether it will hold out

through the summer.

We were informed some time since by a leading organ at Memphis, that the Opposition party was now the

White party, and that the Black and White

party was made up of the good men of all of them.

The recent Convention which assembled in that District to nominate a candidate for Congress, seem to have given up the old type.

The new "American and White" Convention

and got their nominee as an "American

and White" candidate. The Convention to

nominate a county ticket for Sibley did the

same. The Opposition has now

made up its mind to escape the

the rules of its party.

The War Department, and less of the

grand army of the Opposition. A correspondent

of the Richmond

(Virginia) *Herald* says:

"I am elated with the belief that the year

1860 will be another mighty triumph for the

Confederacy. Our champion of Whig principles, Col. Nether-

lands, is demolishing Democracy upon every

battle-field of golden opinions in every

division of the State."

Doubtless some day?

We are to have another mighty triumph of the old Whig party, and another victory for the South, and another victory for Democracy over the Whigs.

Col. Netherlands' champion we suppose

will no longer be bound for the bound for the "Whigs and Whigs," which

he repudiated in 1850. This is the Whig party which the Democracy are to sweep away.

Our champion of Whig principles, Col. Nether-

lands, has got to be the champion of the Whig party, then Col. Netherlands was mistaken in 1850 when he said that the Whig party was

dead, and Americans had given up its

rules. We are to have another mighty triumph of the old Whig party, and another victory for the South, and another victory for Democracy over the Whigs.
